1970
ALBERTA AIR FACILITIES MAP

A day V. F. R. Map of Alberta (Contains Location and information on 484 airstrips of which 479 are in Alberta). Compiled and Published by ALBERTA AVIATION COUNCIL, 201 Terminal Building (under the Control Tower) Industrial Airport, Edmonton 19, Telephone 454-7569.
Produced with the aid and co-operation of the Department of Lands and Forests.

SCALE: 1 Inch:16 Miles

10 0 10 20 30 40 50 60 70 80 90 100 Nautical Miles
10 0 10 20 30 40 50 60 70 80 90 100 110 120 Statute Miles

Available folded (for use in aircraft) or rolled (for wall mounting - 2 copies should be procured for this use as the reverse of the map contains as much airstrip information as the front).

Price $ 2.00 per copy
(free copy (copies) included with membership)
Payment with order please, no C. O. D. nor invoicing.

ALBERTA AVIATION COUNCIL
201 TERMINAL BLDG. - INDUSTRIAL AIRPORT
(Under the Control Tower)
EDMONTON 19, ALBERTA
CANADA

THE OWNERS AND/OR OPERATORS OF THE AIRSTRIPS AND THE ALBERTA AVIATION COUNCIL ASSUME NO RESPONSIBILITY FOR THE CURRENT CONDITION NOR THE CURRENT ACCURACY OF THE INFORMATION ON THE AIRSTRIPS HEREBY SHOWN. THE ATTENTION OF ALL AIRCRAFT OWNERS AND PILOTS IS DIRECTED TO ARTICLE 315 OF CANADIAN AIR REGULATIONS, WHICH STATES:
" THE USE OF ANY LICENSED OR UNLICENSED AREA FOR LANDING OR TAKING OFF AN AIRCRAFT IS PRIMA FACIE PROOF OF THE ACCEPTANCE BY THE PILOT IN COMMAND OF THE AIRCRAFT OF THE SUITABILITY OF THAT AREA FOR THE INTENDED OPERATION."

SPECIAL NOTES

1. On this Map regarding licensed airports and unlicensed aerodromes, there is a vast difference to be understood regarding their designated lengths.

(a) Re licensed airports: In addition to the length shown (e.g. 2,000 ft.) there is a 200 ft. flat overshoot at both ends of this 2,000 feet and thus there is 2,400 ft. of flat field plus clear standard glide slope approaches at both ends.

(b) Re unlicensed aerodromes: In the worst condition there could only be the designated length (e.g. 2,000 ft.) bounded directly at both ends by trees and power lines. Pilots intending to use the unlicensed aerodromes shown on this Map should realize this point re their designated lengths.

2. IFR approach procedures for the 19 Major Airfields shown on this Map plus a few VFR Airport Diagrams are contained in a loose leaf book entitled "Canada Air Pilot West." Copies are available from the Map Distribution Office, Surveys and Mapping Branch, Department of Energy, Mines and Resources, Ottawa, Canada. The price is $7.50, which includes one year of amendment service from date of purchase. After the first year the amendment service costs $4.00 per year.

3. On this Map, the exact locations of the Non Directional Beacons (NDBs) are not shown - but remembering that this Map is intended for day VFR flying - homing on these NDBs will place you within visual range of the airport with which the NDBs are listed.

4. It is mandatory for all aircraft flying into sparsely settled areas (in Alberta that area north and west of the line so indicated) to carry suitable 2-way radio equipment, 5 lbs. of concentrated food per person, cooking utensils, and other emergency camping equipment as listed in Canadian Dept. of Transport Air Navigation Order Series V, No. 12, per the latest issue - possibly one effective 1 January, 1970.

5. Re the positive control areas (shown in green around the airports of Cold Lake, Namao, Edmonton Industrial, Edmonton International, and Calgary) - see Air Navigation Order Series V, No. 21.

6. The Department of Lands and Forests would appreciate sighting information of forest fires. However, if a forest fire is seen, approach with caution as it may already be under suppressive action - in which case there would be considerable air activity in the area. If such is seen to be the situation, all aircraft not involved in fighting the fire are to vacate the area immediately. Note the 13 Forestry Radio Stations on the Map on the frequency of 122.9 mcs. - which are available for use for this purpose or for your own emergency.

7. Permission to fly over or land in the 4 Restricted Military Areas must be sought from the local Commanding Officers.

8. For a road map and general travel and tourist information on Alberta, write to the Alberta Government Travel Bureau, 1629 Centennial Building, Edmonton 15, Alberta.

9. For aviation facilities information further to that provided on this Map, write to the Alberta Aviation Council, 201 Terminal Building, Industrial Airport, Edmonton 19, Alberta.

10. Re this Map, please report any errors, ommissions, changes, to the Alberta Aviation Council, 201 Terminal Building, Industrial Airport, Edmonton 19.

INDEX TO CANADIAN PILOTAGE CHARTS
(8 miles to one inch)
Applicable to Alberta
Available from: Map Distribution Office, Department of Energy, Mines and Resources, 615 Booth St., Ottawa 4, Ontario, Canada.
Price: 50 cents per map

CAUTION
Before using the 4 radio ranges on this map for aural navigation, ensure that they have not been changed to NDB's, this is planned for as early as 1970.

REFERENCE

MAJOR AIRPORTS (and major military aerodromes) (with Instrument Approach Procedures in Canada Air Pilot West)
MINOR AIRPORTS (and minor military and civil aerodromes)
Ticks indicate right hand traffic pattern for Landing circuit
Arrowhead indicates suggested Landing direction. (Due to obstructions and/or suggested uphill Landing.)
Lines of magnetic variation — 22° E
Prohibited flying area-year round (4 areas-military)

City
Town
Village, Post Office, Station
Mountain Peaks
Irrigation Canal
Highway
Railway
Radio Station
Television Station
Elevations in Feet Above Sea Level — 4236'

Explanation of Airstrip Number, Name, and Code Block.
Index number (for further information see the reverse side)
80-LIC WAINWRIGHT 2328-95H — Licensed airstrip. Name of airstrip or closest town. For Letters-see below. Length of longest runway in hundreds of feet.
Altitude of airstrip in feet.

C - customs airport
E - emergency only
G - gravel surface
H - hard surface
L - runway lights
M - military field-prior permission required
P - private field-prior permission required
R - call radio
S - seaplane base
TR - call control tower
TRQ - call control tower-radio is required
U - call unicom
- frequency
RR - radio range
NDB - non-directional beacon

LIGHTS AND SIGNALS

Color and type of Signal	On the Ground	In the Air
Steady Green	Clear for take-off	Clear to Land
Flashing Green	Clear to taxi	Return for landing (to be followed by a steady green at proper time)
Steady Red	Stop	Give way to other aircraft and continue circling
Flashing Red	Taxi clear of landing area (or runway in use)	Airport unsafe DO NOT LAND
Flashing White	Return to starting point on airport

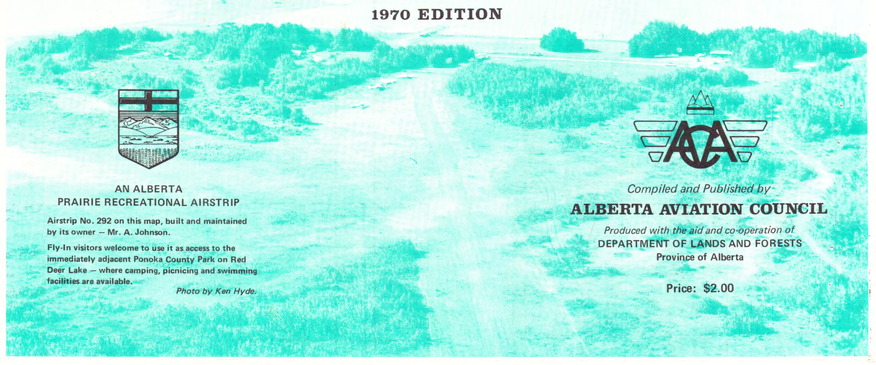
ALBERTA AIR FACILITIES MAP

1970 EDITION



AN ALBERTA
PRAIRIE RECREATIONAL AIRSTRIP

Airstrip No. 292 on this map, built and maintained by its owner — Mr. A. Johnson.

Fly-In visitors welcome to use it as access to the immediately adjacent Ponoka County Park on Red Deer Lake — where camping, picnicing and swimming facilities are available.
